## About Me

I am a web developer in training at BYU Idaho, with experience in freelance projects and specialization in front-end development. I create functional and visually appealing websites using HTML, CSS, JavaScript, and WordPress. I am motivated to learn new technologies and apply creative solutions that enhance user experience and the performance of each project.

## Experiencia laboral

### Junior Front-End Web Developer and Tester

IBilbaoLabs | Oct 2024 - Dec 2024

- I implement design improvements on websites for various businesses, optimizing functionality and user experience.
- I perform testing and ensure quality at every stage of development, identifying and resolving usability and performance issues.
- I collaborate with teams to develop and optimize websites, applying knowledge in HTML, CSS, JavaScript, and WordPress.
- I apply skills acquired at BYU Idaho to enhance project efficiency and performance.

### Freelance - Independent

Various Clients | March 2023 - Present

- Creation of websites in WordPress, WooCommerce, and personal blogs for local clients. Some examples include:

- victoriasotopormelipilla.org: Main website for a city council candidate in Melipilla. I used tools such as HTML, CSS, and WordPress, implementing forms and files while making every change the client requested.
- carolinasotosequel.com: Personal website for a local coach.

### Technology Leader

Misión Chile Puerto Montt | Jan 2022 - Dec 2022

- Coordinated technological infrastructure and managed device mobility while maintaining detailed records.
- Provided technical support and maintained communication with local and international users, enhancing my English skills.
- Trained missionaries in the effective use of technology to optimize communication and teamwork.

## Academic Background

### Brigham Young University Idaho

Web and Computer Programming | sep 2024 - Actual

### BYU Pathway

General Studies: Excel, Geometry, Finance, English, etc. | January 2024 - June 2024
